THE EXPERTS' CHOICE

**BUILT
TO LAST!**

Because we know how to make it different, we focus on the careful selection of materials both mechanical and electronic components, to ensure maximum robustness. But the biggest secret of our durability and resistance lies in the quality of the construction of each machine and in its technological and engineering solutions - Pecol Brushless maximum power and Smart Technology by Pecol - that protect the heart of the machine from the heavy duty work - resistance to intense vibrations, the most powerful work, the highest labor intensity and the pressure of dust and waste.

DIAMOND WHEEL SEGMENTED LASER SILENT

- Better and faster cutting.
- The special segment increases the lifetime of the disc of approx. 40%.
- Reduces the power consumption.
- Constant disc performance over lifetime.

WATCH
THE VIDEO

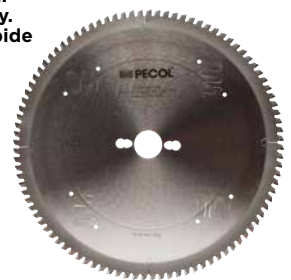

DIAMOND BLADE EXTRA FINE PLUS (PORCELANE TILES)

- The highest performance on gres, porcelanato, vetrified materials and ceramic cutting.

ALUMINIUM/PLASTIC TCG CIRCULAR SAW BLADE

- Provides a perfect cut on aluminum without leaving.
- High durability.
- Tungsten carbide teeth.

DIAMOND WHEEL SC CERAMICS

- Reduces splintering at cut edges and gives a perfect finishing.

DIAMOND WHEEL TURBO

- The continuous rim design has an extremely narrow pitch, allowing perfect finishing with very good cutting edges.

PREMIUM CUTTING STEEL WHEELS

- It is a general-purpose disc in the metallurgy sector with a high cutting performance.
- It is used in all profile and solid parts cutting operations.

PREMIUM THIN CUTTING STEEL WHEELS

- Thin cutting disc for steel and iron cutting.
- High cutting speed
- Low burr production
- Little odour
- Easy, quick and accurate cutting.

NEW

**MANSORY DRILL BIT
FOR PORCELANATE
AND HARD TILES**

Suitable for easy and safe drilling of all types of ceramics, including tiles, stoneware and porcelain. Available from 3 mm to 11 mm diameters.

- Easy to use in several materials.
- Ideal for hard materials such as stoneware and porcelain.
- It can be used on PVC pipes.

**TWIST DRILLS
DIN 338 HSS
M35 5%CO**

Produced in high-speed steel (HSS) that provides high performance in cutting iron, stainless steel, steel, aluminium, wood and plastics. They are fully rectified to distribute evenly the pressure exerted while drilling throughout the drill body.
